

Maryland School Improvement (sec1003) Funding, SY23-24

Comprehensive Support and Improvement (CSI) schools receive comprehensive State and local support for school improvement. CSI schools include Title I schools that are in the lowest-performing 5 percent of Title I schools in the state, or those having a chronically low performing student group. CSI schools include high schools where one third or more of students do not graduate on time. CSI schools receive state support, beginning with a root cause analysis to uncover causes of performance challenges. An improvement plan is then developed and implemented through collaboration, partnerships, and technical assistance. The improvement plan is annually monitored and approved by the State. School districts also receive an annual grant to fund the implementation of evidence-based improvement strategies and supports in their CSI schools.

Additional Targeted Support and Improvement (ATSI) schools are schools where at least one student group performs as low as the lowest performing Title I schools in the State. ATSI schools are identified through Maryland's accountability system with the goal of providing targeted support and improving performance for the identified student group(s). ATSI schools receive targeted support from their districts to address resource inequities and performance challenges within the school. Through collaboration, partnerships, and technical assistance, they develop and implement an improvement plan, which must be annually monitored and approved by the district. Those school districts also receive an annual grant to fund the implementation of evidence-based improvement strategies and supports in ATSI schools and Comprehensive Support and Improvement (CSI) schools.

In the 2023-2024 school year, the state distributed funds to eligible LEAs based on a per-school funding formula. LEAs submitted applications describing how they would meet the requirements of the Every Student Succeeds Act (ESSA), Sections 1003(e) and 1111(d) for developing improvement plans and supporting and monitoring the identified schools' implementation of those plans using evidence-based strategies to drive school improvement activities. The application required LEAs to ensure that their use of funds would be aligned to Federal cost principles and ESSA 1003(a), to provide a budget summary, budget narrative, and school-level allocation amounts. Under ESSA, LEAs have discretion in how they allocate funds to schools. However, the application required LEAs to provide a rationale if it reserved funds for district-level activities or did not allocate funds to an identified school.

District Name	School Identifier	School Name	Designation	School Improvement Funds 1003 FY2024	Types of Strategies Used, 23 24
Allegany	012801	Beall Elementary	Additional Targeted Support and Improvement	\$1,157	High-dosage tutoring
Allegany	010504	Braddock Middle	Additional Targeted Support and Improvement	\$37,245	High-dosage tutoring
Allegany	010701	Cresaptown Elementary	Additional Targeted Support and Improvement	\$37,245	High-dosage tutoring
Allegany	010405	Fort Hill High	Additional Targeted Support and Improvement	\$86,832	High-dosage tutoring
Allegany	010402	John Humbird Elementary	Additional Targeted Support and Improvement	\$1,157	High-dosage tutoring
Allegany	010406	Washington Middle	Additional Targeted Support and Improvement	\$1,157	High-dosage tutoring
Allegany	010603	West Side Elementary	Additional Targeted Support and Improvement	\$900	High-dosage tutoring
